

K[•]H

INTERNATIONAL

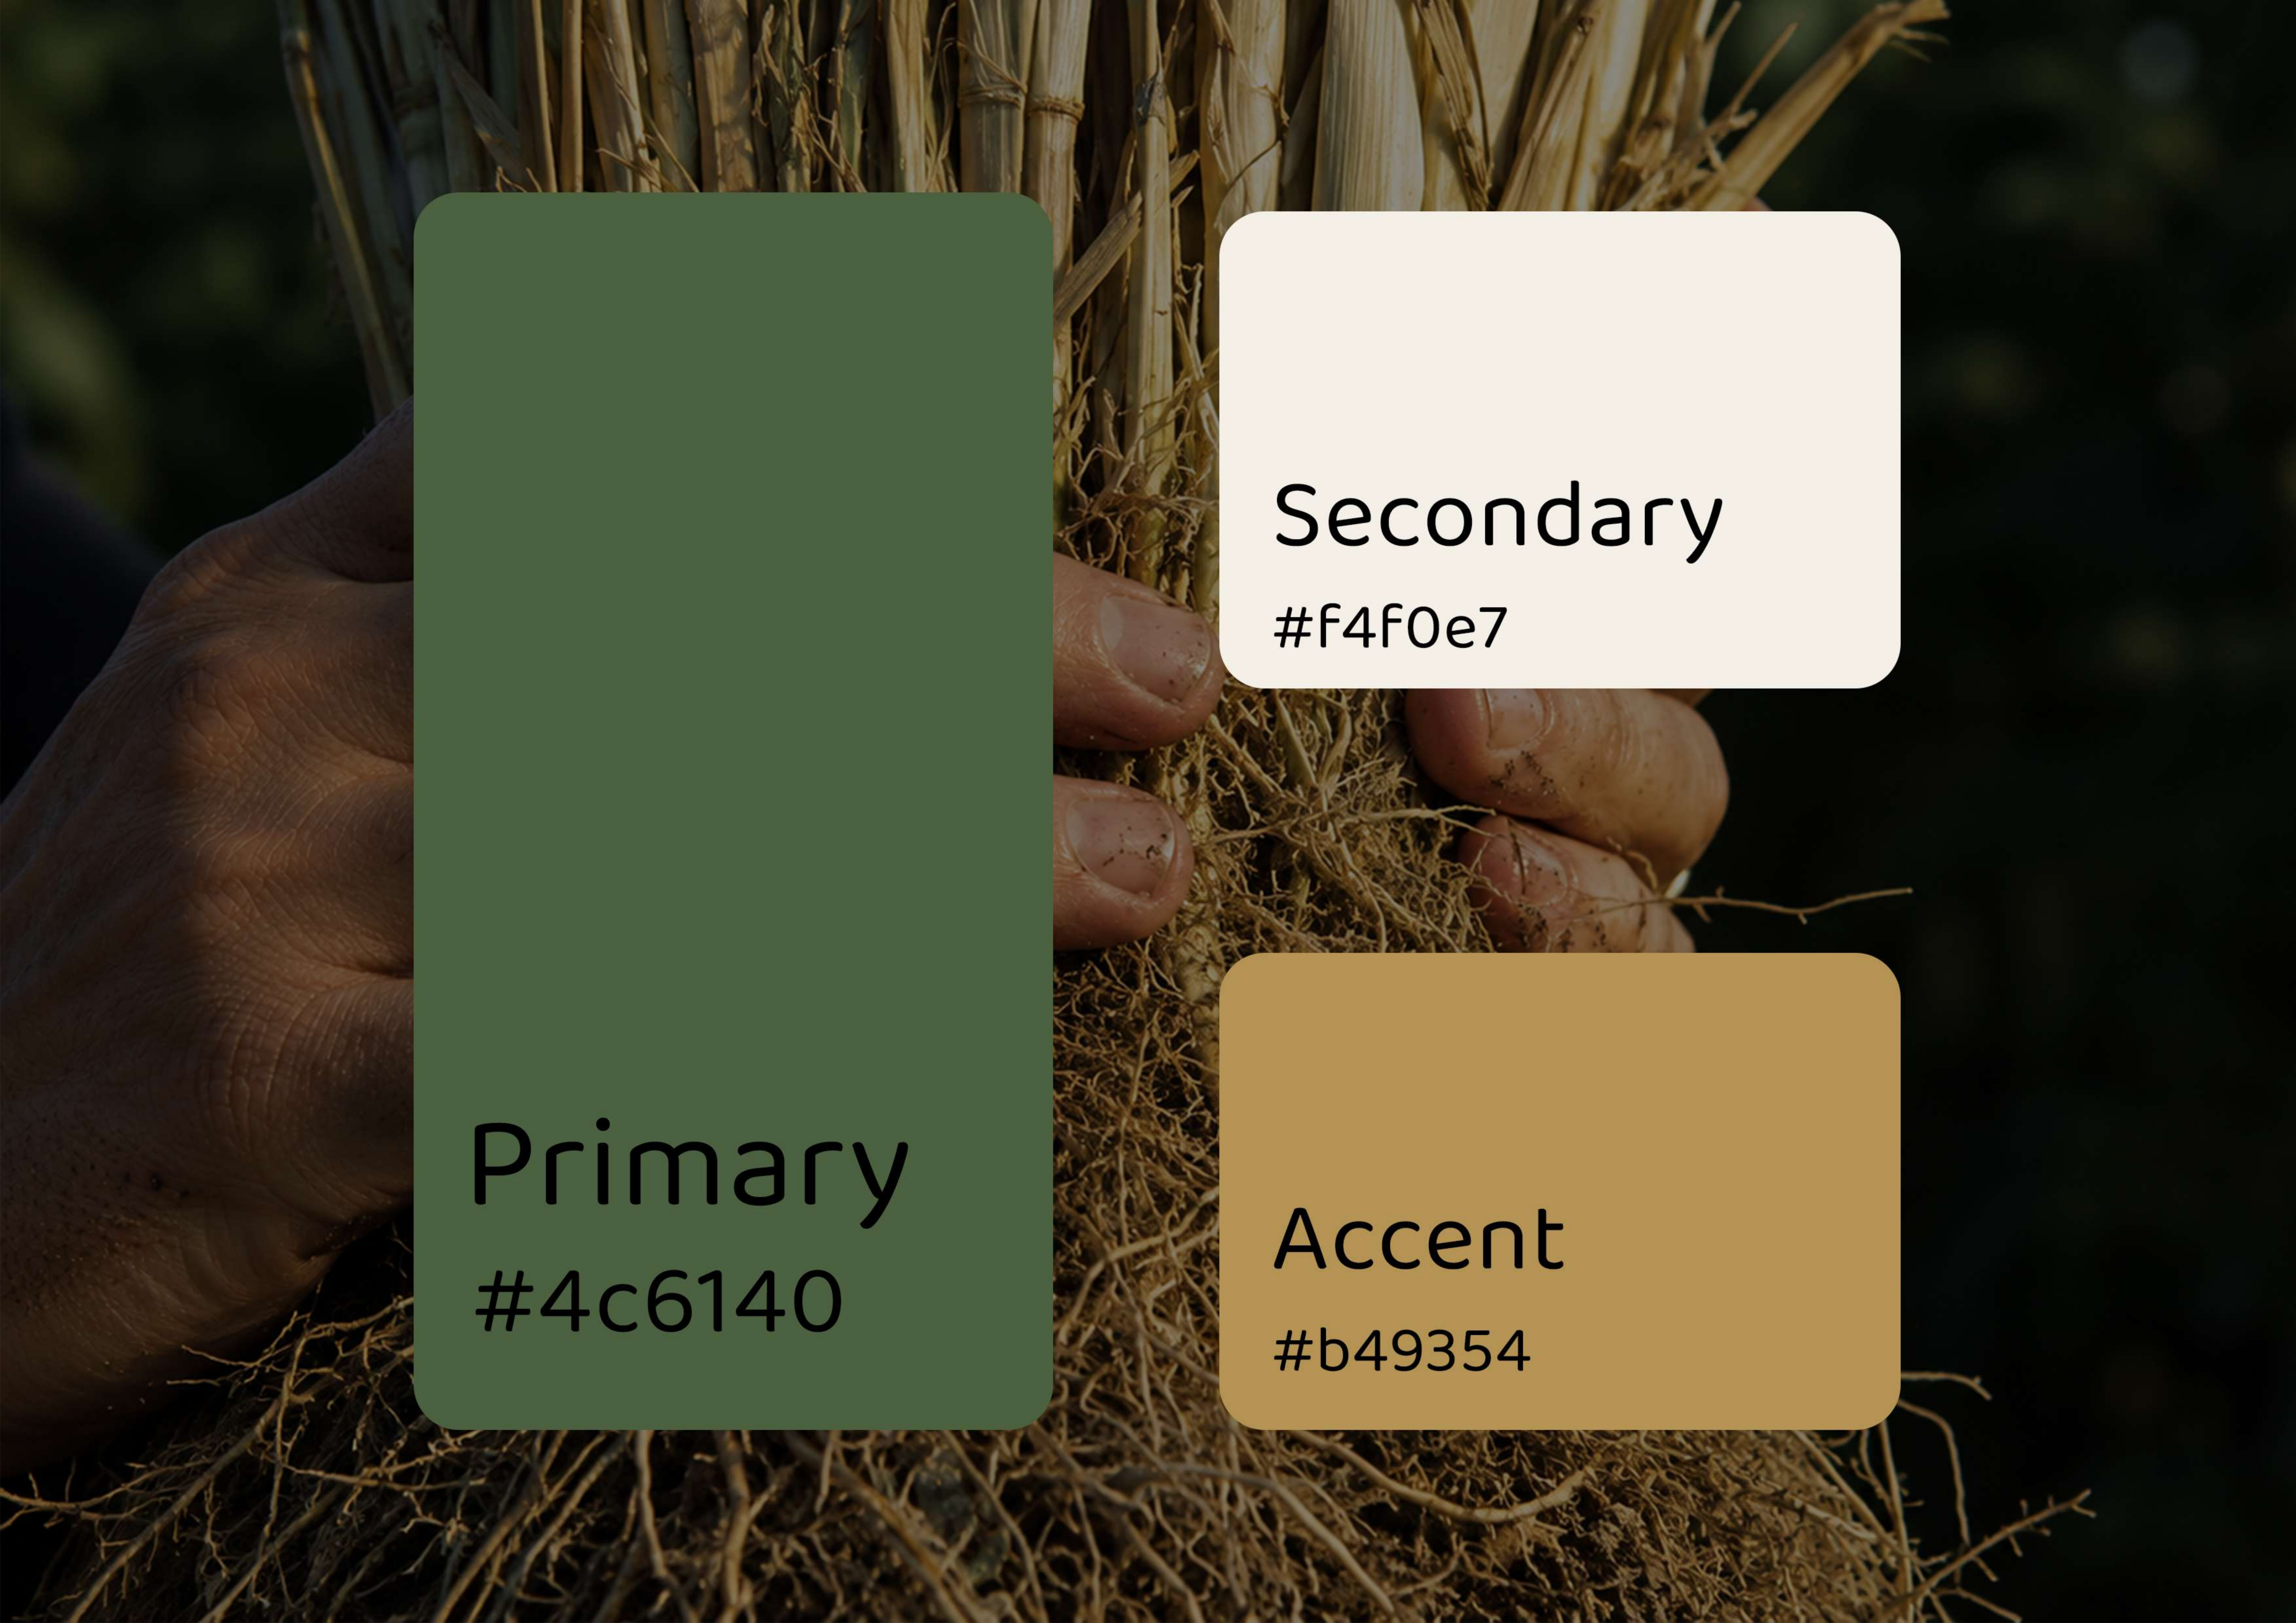

Botanical Extract & Essential Oil

ABOUT

Founded in 2012 in Villupuram, Tamil Nadu, KH International began with a simple belief: that vetiver—a hardy, often overlooked grass—could become the foundation for a fairer, more resilient rural economy.

Vetiver demands remarkably little: minimal water, no chemical dependency, and deep-rooted strength that helps hold soil together and prevent erosion. Yet, when cultivated and managed collectively, it offers much more in return—creating livelihoods, strengthening farming communities, and turning an overlooked resource into an opportunity for sustainable growth.

What began as a belief has grown into a purpose: to build value around what rural communities already have, while creating a future that is both economically viable and environmentally responsible.

A close-up photograph of a hand holding a bundle of dried reeds or straw. The background is dark and out of focus. Overlaid on the image are three rounded rectangular color swatches: a large green one on the left, a white one on the top right, and a yellow one on the bottom right. Each swatch contains text for a color name and its hex code.
