Everything You Can Do on Travellers Triibe

A platform where travellers save money and merchants grow their business — powered by instant discounts.

How It Works

1

Merchant creates a bill

The merchant enters the bill amount and generates a QR code with a locked discount.

2

Customer scans the QR

The customer scans the QR code or enters the bill token to see the payment summary.

3

Pay & save instantly

The customer pays the discounted amount via UPI, card, or netbanking. Savings are tracked automatically.

For Customers

Discover Merchants

Browse restaurants, cafes, salons, hotels and more. Filter by category, city, or search by name to find the perfect spot.
