

FOUR VERTICALS · TWO TECHNOLOGY MISSIONS

India's Craft, *Everywhere It Belongs.*

Vivium connects artisans, designers, and brands to the places craft actually gets used — schools, buildings, hospitality spaces, and homes — through a technology platform built to grow with every layer of that ecosystem.

[Explore Our Verticals](#)

[Partner With Us](#)

One artisan network, four places it goes to work.

01

Schools

Artisan-led craft workshops that bring real skills and real makers into the classroom

[Explore →](#)

02

Construction

Craft-forward styling and decor for model homes, common areas, and client handovers

[Explore →](#)

03

Hospitality

Curated artisan products and guest experiences for hotels, resorts, and dining spaces

[Explore →](#)

04

Direct Retail & D2C

Authentic, artisan-made products — available directly, with the maker's story attached

[Explore →](#)

Two missions, one platform.

This is the layer that makes the four verticals possible to run at scale — not a separate product.

MISSION 01

A community platform

Every layer of the craft ecosystem — artisans, designers, brands, retailers, customers — connected on one platform, made smarter by the technology underneath it.

AI / ML

Smart matchmaking between artisans, designers, and buyers; demand forecasting so artisan partners can plan production with real visibility, not guesswork

AR / VR

Virtual masterclasses with artisans; “see it in your space” visualization for decor and craft pieces before you buy; immersive maker-story experiences

Blockchain

Verified provenance — every product traceable back to the artisan who made it; transparent, fair-payment smart contracts so makers are paid promptly and visibly

In-Room Decor

Handwoven textiles, artisan wall art, terracotta fixtures

Welcome & Turndown Gifts

Handmade soap and small artisan pieces, with the maker's story on the card

Dining & F&B

Hand-thrown ceramic tableware and artisan serveware

Landscape & Common Areas

Statement planters and living-wall installations — the highest-visibility category for guest photography

Retail Corner

A curated shelf of artisan products guests can purchase before checkout

Guest Experience Add-On

An on-site pottery or craft workshop, bookable as a paid guest activity

CONTACT

Let's build something with craft in it.

Whether you run a school, a development, a hotel group, or a workshop of your own — tell us where you fit and we'll come back with a concrete first step.
